To Whom It May Concern:

Looking for that handsome vapid Boy-Band? That's not us.

Looking for that haggard, faded, tired cover band? That's not us.

Looking for testosterone poisoned death metal? That's not us.

Looking for some gritty, quirky and smart original eclectic Blues-Rootsy Rock? That's us. We are the Amoreys, a Chicago band.

We have been plying out since September 2000.

Richard Milne (Local Anesthetic Show on WXRT in Chicago) said, "*There's something about the slow burn mumble of the Amoreys that gets under my skin pretty quickly...The Amoreys are older guys. No dreams of pop stardom...you know...they're smarter than that. It's a shared love of a good song played well that keeps 'em giggin' ...Now I can't guarantee you a good time at one of their shows but the odds are in your favor...*"

Over the years we have played many Chicago and suburban clubs, festivals and private events. (A complete list of upcoming and past shows is available at our web site). We play clubs from Michigan and Indiana to Wisconsin. Our audiences, though often expecting a cover band, are always comfortable with and appreciative of our material and presentation.

We would like to play for you!

Yours truly,

Rich Capalbo, The Amoreys
